FLICK'S MOVIE CLUB

SAMPLE FAMILY MOVIE NIGHT

More coloring and movie activities:
prostylezcinema.com/kids-corner

ROUND 1: LIGHTS & SCREENS

1. Which is faster: light or sound?

2. How does light travel from a flashlight?

3. Why can't we see stars in the daytime?

4. Why do outdoor movies wait until after sunset?

5. Is it OK to look right into a projector's lens?

ROUND 2: MAKING MOVIES MOVE

1. Flip a flip book fast. What do the pictures seem to do?

2. About how many pictures does movie film show each second?

3. What spinning toy with slits makes drawings look like they move?

4. Still pictures seem to move. Which part of you does most of that work?

5. What do filmmakers call a plan of the movie drawn shot by shot?

ROUND 3: SOUNDS OF THE SHOW

1. Sound artists knock coconut halves together. What does it sound like?

2. Shake a big, thin metal sheet. What sound can it make?

3. Flap a pair of gloves fast. What does it sound like?

4. Crinkle cellophane slowly. What sound can it copy?

5. What makes every sound you hear?

SAMPLE FAMILY MOVIE NIGHT

Tonight's movie: Your Licensed Movie Title
Example Park Pavilion, Sampletown
Saturday (example date)

Preshow

6:30 Coloring and trivia
7:15 Popcorn and a pre-show
7:45 Movie starts (after dark)

Bring a blanket or low chair. Rain plan: the organizer posts updates. This is a SAMPLE; no real event is scheduled.

Write your answers on this sheet. Nothing to send online.
